

Precautions **we're taking** to facilitate **Collection Continuity**

Nothing is more important to us than the health and well-being of the Stone community. This is however on par with the health and well-being of the environment too.

We are completely committed to ensuring that our IT Asset Disposal facility and collections are operating in the safest way for all and we would like to reassure you of the additional steps we are taking currently.

1 Driver Health

In line with government guidelines, drivers are monitoring their own health and that of their family and will self-isolate if necessary.

Furthermore, temperature checks are taken each morning for every driver.

If anyone registers a temperature of over 37.8°C, they will be sent home to self-isolate and will not, under any circumstances, be allowed to travel to site.

2 PPE and Social Distancing

All drivers or driver mates will use gloves for each collection.

Where available, our drivers will be issued with hand sanitiser and will wash their hands at every opportunity.

Drivers will maintain a two-meter distance from any individual with whom they interact.

3 Paper Work

In agreement with customers, drivers will sign any required collection and delivery paperwork and take a photographic record that the delivery or collection has taken place.

A customer contact name and signature is also required.
